Course Overview

This course is a building Web Site course using WordPress.

WordPress is a widely-known platform used by 33% of all websites on the internet! There are so many ways to approach using WordPress that it can be hard to know where to start.

This course will take you on a clear and easy journey through installation, customization, and launch of a WordPress site (without writing a line of back-end code!) so that you can get great-looking websites up and running quickly, whether it's for a client request or for your own use.

Course Learning outcomes

At the end of this course, the student will know how to:

- Describe how WordPress came to be and why you'd use it
- Launch a WordPress site live on the web
- Mock up a WordPress site structure
- Find and install the perfect theme for your needs
- Customize a design to fit your content
- Host your website

Prerequisites

- There is no prerequisite for this course (Anyone can take it)
- And a problem solver mindset is an advantage
